Inset
Outset

border-width: " " px   -----page10-----

(different number)

border-color: " ";

(All color)

                    .
border-radius: " " px;

(Different number)

padding: " " px;

(Different number)

text-shadow: 0px 0px 0px " " ;

(Can use 2 shadows)

box-shadow: 0px 0px 0px " ";

(Different number and different color)

h1:hover{
box-shadow: 0px 0px 0px " ";
}

(Pops up when we put the coarser)

float: " ";

(Makes left and right,)

height: 0px;
width: 0px;

(Make size box)

background-color: " ";

(Any colors)

border: 0px solid;

(Makes a line box)

font-size: 0px;

(Makes smaller and big)

-----------------------JS-----------------------

Pictures:

```html
<div class="wrapper">
        <h2 class="hibtn">hi</h2>
        <button class="saygoodbyebtn">say
goodbye</button>
    </div>
```

Html

```javascript
1    const wrapper =
     document.querySelector('.wrapper');
2    const hibtn = document.querySelector('.hibtn');
3    const saygoodbyebtn =
     document.querySelector('.saygoodbyebtn');
4
5 ∨  saygoodbyebtn.addEventListener('click', () => {
6            hibtn.innerHTML = 'bye-bye :('
7    });
```

Js

Note. Sorry i did not make some text please you have to next time
